

Chinch Bug Damage

MOST VALUABLE TOOL FOR THE LANDSCAPE INDUSTRY: MAINTAIN YOUR CLIENTS' LANDSCAPE WHILE REDUCING THE NEED FOR CHEMICALS WITH ICT ESSENTIAL 1-PHE™ (PLANT HEALTH ENHANCEMENT). CONTROL A WIDE RANGE OF INSECTS AND MITES. APPROVED BY THE NATIONAL ORGANIC PROGRAM. EPA 25(B) EXEMPT MINIMUM RISK PESTICIDE.

ICT Essential 1-PHE™ controls aphids, ants, chinch bugs, lace bugs, bagworms, wooly adelgid, white flies, scale, fleas, mosquitos, ticks, mites and other pests in the landscape.

- Kills on contact
- Repels for up to 3 weeks
- Several modes of action which reduces resistance
- Boosts plant metabolism and phyto-defense

Tech Terra is a national leader in the landscape industry. We can reduce the regulatory burden on your company and simplify employee training. The use of Minimum Risk Pesticides shows your clients that you care about their safety and that your practices reduce environmental impacts. The Green Industry is changing and now is the time to stay ahead of the curve!
